

# Health Needs Assessment

## Lincoln Green

To analyse health related behaviour & develop a health strategy that's responsive to the assets in the community & citizens' needs.

### Data

91 Residents  
79 Adults  
20 Young People  
23 Agencies

Partner Reports  
existing survey  
data (n=134)

### Access to the Health Centres

Language Barriers

Hard to make appointments  
Some patients felt disregarded  
Feelings of discrimination  
Using doctors for non-medical services  
Need for female doctors  
Patient participation group

### Access to Screening Service

Unaware of what services are on their doorstep  
Vaccine MMR only 30% take up of second immunisation  
Over 40s Health Check: 1 in 6 take up an appointment

### Language & Communications

Urgent need for more advanced ESOL classes & conversation clubs  
No classes available school holidays & crèche facilities

### Connections to Services

Unawareness of mental health services available  
Mental health dealt with in the family unit  
Resident perceptions of their GP affects access to health care & connected services

### Infrastructure & Housing

Most people like the area  
Positive assets in the community  
New District Heating  
A real opportunity to gain more insight into the needs of the community

### Access to Meaningful Employment

Little understanding about how to navigate the employment market  
Language barriers stop residents from applying for jobs

### Young People

Not enough play areas for the no. of children - loss of the MUGA & no access to school  
Safety concerns - Gangs, drink & drugs  
Little provision for young people  
Need for a creche  
Lack of green space & poor environment to play
