

## Area overview profile for Kirkstall ward, using GP data

This profile presents a high level summary of GP record data sets for the Kirkstall ward, using closest match Middle Super Output Areas (MSOAs) to calculate the area.

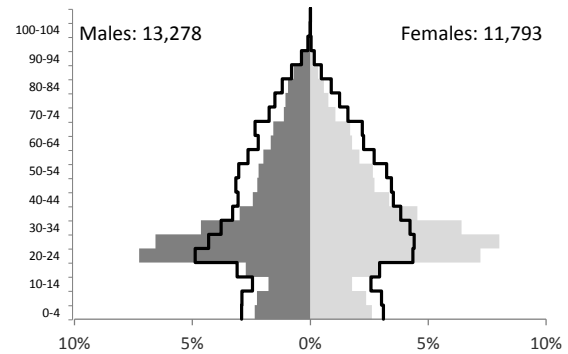

All wards are ranked to display variation across Leeds and this one is outlined in red.

If the ranked wards are significantly above or below the Leeds rate then they are coloured as a dark grey bar, otherwise they are shown as white to indicate they are not significantly different to Leeds.

Leeds overall is shown as a horizontal black line, Deprived Leeds\* (or the most deprived fifth\*\*) is an orange dashed horizontal. The MSOAs that make up this ward are overlaid as red circles and often range widely.

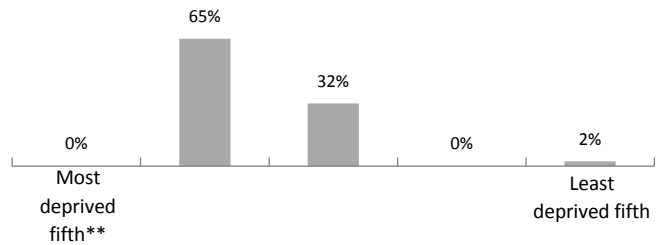

### Population: 25,071

Comparison of ward in grey (orange if within most deprived fifth of Leeds) and Leeds age structures (outlined in black) January 2016.

### Deprivation

Proportions of this population within each deprivation 'quintile' or fifth of Leeds (Leeds therefore has equal proportions of 20%) January 2016.

Pupil ethnicity, top 5	Ward	% Ward	% Leeds
White - British	1,373	53%	67%
Pakistani	209	8%	6%
Black - African	162	6%	5%
Any other white background	142	6%	4%
Any other ethnic group	122	5%	2%

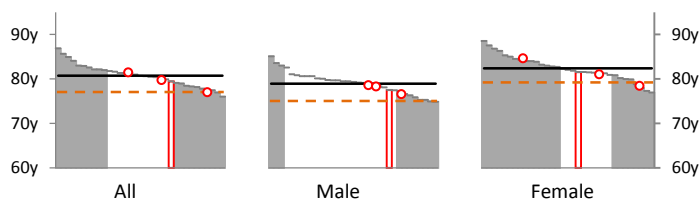

Pupil language, top 5	Ward	% Ward	% Leeds
English	1,841	71%	80%
Other than English	106	4%	1%
Urdu	105	4%	3%
Arabic	69	3%	1%
blank	44	2%	2%

(Pupil data from January 2016 School Census)

GP recorded ethnicity, top 5	% Ward	% Leeds
White British	61%	60%
(blank)	10%	12%
Other White Background	7%	9%
Pakistani or British Pakistani	3%	3%
Other Asian Background	2%	2%

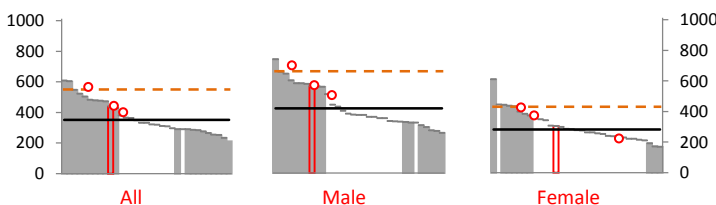

(January 2016)

### Life expectancy at birth, 2011-13 ranked wards

(years)	All	Males	Females
Ward	79.4	77.5	81.5
Leeds resident	80.7	78.9	82.4
Deprived Leeds*	77.0	75.0	79.2

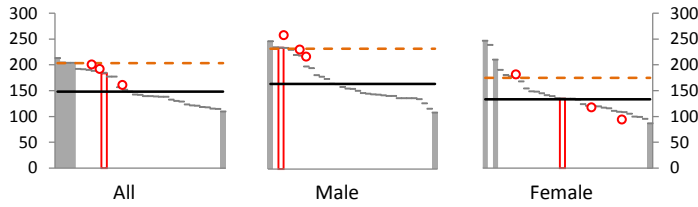

### All cause mortality - under 75s, 2010-14 ranked wards

(DSR per 100,000)	All	Males	Females
Ward	437	567	305
Highest MSOAs in ward	565	703	425
Lowest MSOAs in ward	399	509	222
Leeds resident	351	423	281
Deprived fifth**	550	668	431

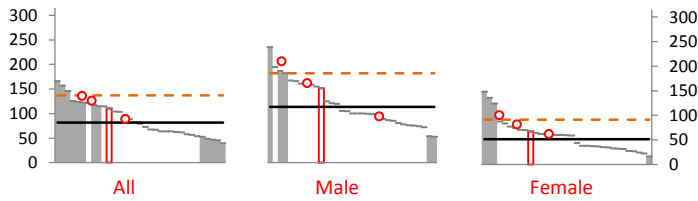

DSR - Directly Standardised Rate removes the effect that age structures have on data, allows comparison of 'young' and 'old' areas

**Cancer mortality - under 75s, 2010-14 ranked wards**

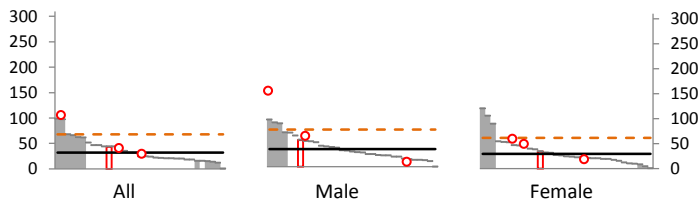

(DSR per 100,000)	All	Males	Females
Ward	184	235	134
Highest MSOAs in area	200	259	181
Lowest MSOAs in area	161	217	93
Leeds resident	148	165	133
Deprived fifth**	204	234	175

**Circulatory disease mortality - under 75s, 2010-14 ranked wards**

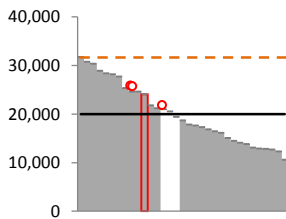

(DSR per 100,000)	All	Males	Females
Ward	110	151	67
Highest MSOAs in area	135	206	100
Lowest MSOAs in area	88	93	62
Leeds resident	82	113	51
Deprived fifth	137	182	91

**Respiratory disease mortality - under 75s, 2010-14 ranked wards**

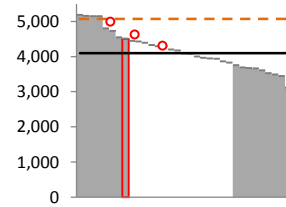

(DSR per 100,000)	All	Males	Females
Ward	44	54	34
Highest MSOAs in area	105	152	59
Lowest MSOAs in area	29	9	18
Leeds resident	32	35	29
Deprived fifth	68	74	61

**GP data. Quarterly data collection, January 2016 (DSR per 100,000)**

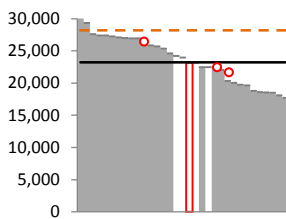

**Smoking (16y+)**

Ward	24,058
Leeds	20,022
Deprived Leeds *	31,689

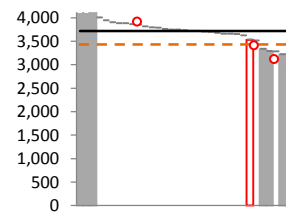

**CHD**

Ward	4,498
Leeds	4,098
Deprived Leeds	5,069

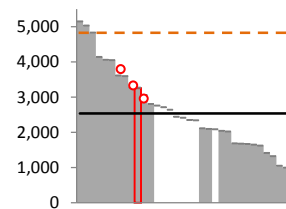

**Adult obesity (BMI>30)**

Ward	23,160
Leeds	23,246
Deprived Leeds	28,183

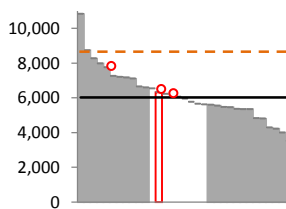

**Cancer**

Ward	3,529
Leeds	3,719
Deprived Leeds	3,432

**COPD**

Ward	3,258
Leeds	2,537
Deprived Leeds	4,825

**Diabetes**

Ward	6,324
Leeds	6,015
Deprived Leeds	8,655

The GP data charts show all 33 wards in rank order by directly standardised rate (DSR). DSR removes the effect that differing age structures have on data, and allow comparison of 'young' and 'old' areas. GP data can only reflect those patients who visit their doctor. Certain groups within the population are known to present late, or not at all, therefore it is important to remember that GP data is not the whole of the picture. This data includes all Leeds GP registered patients who live within the ward. However, some areas of Leeds have low numbers of patients registered at Leeds practices; if too few then their data is excluded from the data here. Obesity here is the rate within the population who have a recorded BMI.

\*Deprived Leeds: areas of Leeds within the 10% most deprived in England, using the Index of Multiple Deprivation. \*\*Most deprived fifth, or quintile of Leeds - divides Leeds into five areas from most to least deprived, using IMD2015 LSOA scores adjusted to MSA2011 areas using mid-2012 GP registered population weighting.
