

## Area overview profile for Outer West Community Committee

This profile presents a high level summary of data sets for the Outer West Community Committee, using closest match Middle Super Output Areas (MSOAs) to calculate the area.

All ten Community Committees are ranked to display variation across Leeds and this one is outlined in red.

If a Community Committee is significantly above or below the Leeds rate then it is shaded red or green respectively, otherwise it is shown as white. Leeds overall is shown as a horizontal black line, Deprived Leeds\* (or the deprived fifth\*\*) is a dashed horizontal. The MSOAs that make up this area are shown as red circles and often range widely.

Pupil ethnicity, top 5	Area	% Area	% Leeds
White British	9,521	81%	65%
Pakistani	553	5%	6%
Any other white background	340	3%	5%
Indian	333	3%	2%
Any other mixed background	198	2%	2%

(January 2018, top 5 in Community committee, corresponding Leeds value. Includes unknowns)

Pupil language, top 5	Area	% Area	% Leeds
English	10,645	90%	79%
Urdu	194	2%	3%
Panjabi	191	2%	1%
Other than English	155	1%	1%
Polish	127	1%	2%

(January 2018, top 5 in Community committee, corresponding Leeds value. Includes unknowns)

Population: 73,765

37,391

36,374

Comparison of Community Committee and Leeds age structures in October 2018.

Leeds is outlined in black, Community Committee populations are shown as orange if inside the most deprived fifth of Leeds, or grey if elsewhere.

### Deprivation distribution

Proportions of this population within each deprivation 'quintile' or fifth of Leeds (Leeds therefore has equal proportions of 20%), October 2018.

GP recorded ethnicity, top 5	% Area	% Leeds
White British	85%	70%
Other White Background	6%	10%
Indian or British Indian	3%	3%
Pakistani or British Pakistani	2%	3%
Other Ethnic Background	1%	2%

(October 2018, top 5 in Community committee, and corresponding Leeds values. Does not include unknowns)

## Life expectancy at birth, 2014-16 ranked Community Committees

ONS and GP registered populations

(years)	All	Males	Females
Outer West CC	80.7	79.0	82.2
Leeds resident	80.9	79.1	82.7
Deprived Leeds*	76.6	74.4	79.0

### "How different is the life expectancy here to Leeds?"

The three charts below show life expectancy for people, men, and women in this Community Committee in red against Leeds. The Community Committee points are coloured red if the it is significantly worse than Leeds, green if better than Leeds, and white if not significantly different.

Life expectancy in this Community Committee is seen to be improving but is not significantly different to that of Leeds yet.

**Child obesity - Year 6***National Child Measurement Programme (NCMP)*

Child obesity data is shown here for Year 6 classes in Leeds in 2016-17.

The Community Committees are displayed in deprivation order with the most deprived on the left. The proportions of 'healthy weight' increase as deprivation falls, this is mostly due to larger 'very overweight' groups in more deprived areas.

- Underweight
- Healthy Weight
- Overweight
- very overweight
- This Community Committee

**Looked after children***Intelligence & Policy Service LCC*

Number of looked after children in Community Committees from 2016-17.

The Community Committees are shown ranked by deprivation and despite variations in population sizes the general picture shows larger counts in more deprived areas. Children living inside the most deprived fifth of Leeds are shown in orange.

- Not in deprived 5th
- In most deprived fifth
- This Community Committee

**Job seekers allowance**<https://www.nomisweb.co.uk/>

Counts of adults receiving Job Seekers Allowance in August 2018. the data is split by the amount of time spent receiving the allowance.

The Community Committees are ranked by levels of deprivation and despite variations in population size and structure, there is a clear reduction in numbers as deprivation falls.

- 1 to 13 weeks
- 13 to 52 weeks
- 52+ weeks

## GP recorded conditions, persons (DSR per 100,000)

GP data, October 2018

**Smoking (16y+)**

Outer West CC	17,760
Leeds	18,277
Deprived fifth**	27,619

**CHD**

Outer West CC	3,700
Leeds	3,783
Deprived fifth	4,663

**Obesity (16y+ and BMI>30)**

Outer West CC	25,409
Leeds	23,712
Deprived fifth	27,935

**Cancer**

Outer West CC	4,150
Leeds	4,065
Deprived fifth	3,653

**COPD**

Outer West CC	2,612
Leeds	2,596
Deprived fifth	4,589

**Diabetes**

Outer West CC	5,914
Leeds	6,259
Deprived fifth	9,233

**Common mental health**

Outer West CC	25,822
Leeds	22,361
Deprived fifth	22,076

**Severe mental health**

Outer West CC	985
Leeds	1,069
Deprived fifth	1,565

**Asthma in children**

Outer West CC	6,532
Leeds	6,286
Deprived fifth	6,207

**Dementia (over 65s)**

Outer West CC	4,919
Leeds	4,701
Deprived fifth	6,367

The GP data charts show all ten Community Committees in rank order by directly standardised rate (DSR). DSR removes the effect that differing age structures have on data, and allow comparison of 'young' and 'old' areas. GP data can only reflect those patients who visit their doctor. Certain groups within the population are known to present late, or not at all, therefore it is important to remember that GP data is not the whole of the picture. This data includes all Leeds GP registered patients who live within the Community Committee. Obesity here is the rate within the population who have a recorded BMI. If a Community Committee is significantly above or below the Leeds rate then it is shaded red or green respectively, otherwise it is shown as white.

## Alcohol dependency - the Audit-C test

GP data, most recent scores, recorded between September 2014 and October 2018

The Audit-C test assesses a patients drinking habits, assigning them a score. Patients scoring 8 or higher are considered to be at 'increasing risk' due to their alcohol consumption.

The *proportion* of tests which score 8 or more are shown here for this Community Committee in blue with the Leeds rates overlaid in dark grey.

Men generally have a greater rate than women.

## Alcohol specific hospital admissions, 2015-17 ranked

HES

## Mortality - under 75s, age Standardised Rates per 100,000

ONS and GP registered populations

"How different are the sexes in this area?"

- Males  
△ Females

Gender rates are solid red if they are significantly different to one another.

"Where is this Community Committee in relation to the others and Leeds?"

Community Committees are ranked by their most recent rates and coloured as red or green if their rate is significantly above or below that of Leeds.

Rates for small areas within this Community Committee are shown as red dots. This Community Committee is highlighted with a red border.

## All cause mortality - under 75s

Persons (DSR per 100,000)	
Outer West CC	346
<u>Count of deaths in 2012-16</u>	1,005
Leeds resident	356
Deprived fifth**	562

## Cancer mortality - under 75s

Persons (DSR per 100,000)	
Outer West CC	145
<u>Count of deaths in 2012-16</u>	417
Leeds resident	146
Deprived fifth	201

## Circulatory disease mortality - under 75s

Persons (DSR per 100,000)	
Outer West CC	83
<u>Count of deaths in 2012-16</u>	238
Leeds resident	82
Deprived fifth	141

## Respiratory disease mortality - under 75s

Persons (DSR per 100,000)	
Outer West CC	32
<u>Count of deaths in 2012-16</u>	86
Leeds resident	32
Deprived fifth	64

DSR - Directly Standardised Rate removes the effect that differing age structures have on data, allows comparison of 'young' and 'old' areas.

## Frailty rates - all ages

GP data, April 2018

Rates of frailty (all ages) within whole populations. The Community Committees here are ordered from most deprived on the left to least deprived on the right.

Less deprived populations tend to have larger proportions of elderly patients, but in this chart the least deprived areas have some of the lowest rates of frailty.

## Outer West Community Committee

The health and wellbeing of the Outer West Community Committee contains wide variation across the full range of Leeds, overall looking average for the city. Almost 10% of the population live in the most deprived fifth of Leeds\*\* with the rest distributed over the full range. Life expectancy for the Community Committee is virtually that of Leeds although male life expectancy is improving slightly quicker than Leeds and may soon overtake it.

The age structure bears some resemblance to that of Leeds overall with more very young children, and fewer young adults. GP recorded ethnicity shows the Community Committee to have larger proportions of “White background” than Leeds. Around 9% of the GP population in Leeds have no recorded ethnicity and are not included here, which needs to be taken into account. The pupil survey which has a higher rate of recording shows a similar picture with a larger than Leeds proportion of ‘White British’.

GP recorded obesity is significantly above Leeds but mid ranking in the city among other Community Committees. Common mental health issues (recorded by GPs) are the highest in the city with very little variation within the area. Smoking and diabetes are significantly below Leeds, but very close to it. One MSOA – ‘Farnley’ has the third highest smoking rate in the whole city. GP recorded severe mental health, and COPD both show a high rate also in ‘Farnley’.

The alcohol dependency test shows an older population than Leeds with the usual higher counts for males, except for the younger age bands which have much smaller rates than Leeds overall. Alcohol specific admissions are distributed widely at small area level but average for the INT, of note again is the ‘Farnley’ MSOA which is very high within Leeds for men, women and overall.

Mortality rates for under 75s are very close to the Leeds average and following it closely. ‘Farnley’ MSOA again has the highest rates in this Community Committee.

The **Map** shows this Community Committee as a black outline. Health data is available at MSOA level and must be aggregated to best-fit the committee boundary. The MSOAs used in this report are shaded orange.

\* **Deprived Leeds:** areas of Leeds within the 10% most deprived in England, using the Index of Multiple Deprivation. \*\***Most deprived fifth of Leeds** - Leeds split into five areas from most to least deprived. **Ordnance Survey** PSMA Data, Licence Number 100050507, (c) Crown Copyright 2011, All rights reserved. **GP data** courtesy of Leeds GPs, only includes Leeds registered patients who are resident in the city. **Admissions data** Copyright © 2016, re-used with the permission of the Health and Social Care Information Centre (HSCIC) / NHS Digital.
